Introducing Horizon MyWay® FSA

The State of New Jersey is pleased to work with Horizon Blue Cross Blue Shield of New Jersey (Horizon) in the administration of your Flexible Spending Account(s) through Horizon MyWay.

Start Saving. Here's How.

A Medical FSA is an account you set up for your anticipated eligible medical services and medical supply expenses not normally covered by your insurance.

A Dependent Care FSA is a pre-tax benefit account used to pay eligible dependent care services, such as preschool, summer day camp, before or after-school programs, and child or adult daycare.

You can choose either – or both – an Unreimbursed Medical FSA and a Dependent Care FSA.

With either FSA, you benefit from having less taxable income in each of your paychecks, which means more spendable pre-tax income to use toward your eligible medical and dependent care expenses.

Is an FSA Right for You?

Medical: You'd like to supplement your health care savings pretax to pay for qualified out-of-pocket medical, dental, orthodontia, vision and prescription expenses.

Dependent Care: You have a qualifying child under 13 years old – or a relative who isn't physically or mentally capable of caring for themselves – who lives with you for more than half the year.

Important Dates to Remember

Horizon MyWay FSA: How it Works

How a Medical FSA Works

Decide how much you want to set aside for medical, dental, orthodontia and vision costs within the plan year.

- Throughout the year, the amount you select will be withheld pretax from your pay and put into your FSA.
- Your total FSA contribution is available from day one, even if it has not all been deposited into your account.
- Pay your out-of-pocket medical bills using a Horizon MyWay Visa® Debit Card or get reimbursed by submitting a claim online.

Annual Contribution Limits

- Throughout the year, the amount you select will be withheld pretax from your pay and put into your FSA.
- Once the money has been deposited, it's ready to use. Simply submit receipts for dependent care costs and get reimbursed up to the available balance in your account.

Typical FSA-Eligible Dependent Care Expenses:

- **Before and after school care**
- **Babysitting and nanny expenses.** Can include paying an older sibling or other family member to watch a child under age 13 after school or any time the participant is working or traveling to/from work, but must obtain social security number from caregiver to document expense.
- **Daycare, nursery school and preschool**
- **Summer day camp.** For overnight camp, participant must acquire documentation from the camp breaking out the cost of day and night portions. The night portion is not eligible for FSA reimbursement.
- **Care for your spouse or a relative** who is physically or mentally incapable of self-care and lives in your home. Must have lived with you for half the year and is your dependent.

¹ Depends on your tax filing status. Please consult your tax advisor with questions. ² Before and after school care by a licensed provider is considered childcare by the IRS. Summer day camps also count as childcare. Expenses for the night portion of overnight summer camps and tuition for kindergarten and first grade (or higher) generally do not qualify for dependent care credit. ³ When an elderly or disabled parent is considered a dependent on your taxes and you are covering more than 50% of their maintenance costs.
